Home Coursework Apply Tuition & Fees FAQs About

The Lede Program

An intensive, remote-friendly summer program from Columbia's Graduate School of Journalism designed to equip journalists and storytellers of all kinds with the skills needed to **turn data into narrative**

The Lede Program

Columbia Journalism School's Lede Program is a 10-week intensive on coding, data analysis, and visual storytelling. For 2024, the course will be once again operate with **in-person and remote options**.

No Prerequisites

We start from zero, **with no prior experience in data or coding necessary** – You'll learn it all along the way. If you can turn on your computer, you're ready to go!

Not just for journalists

Pulling insights from data **isn't just for journalists** — our tools and skills are equally valuable to social scientists, policymakers, and academics of all stripes.

Real-World Skills

Tired of programming tutorials that are all about complex ways of putting a dozen numbers in order? We teach the **practical, real-world skills** in data analysis and visua

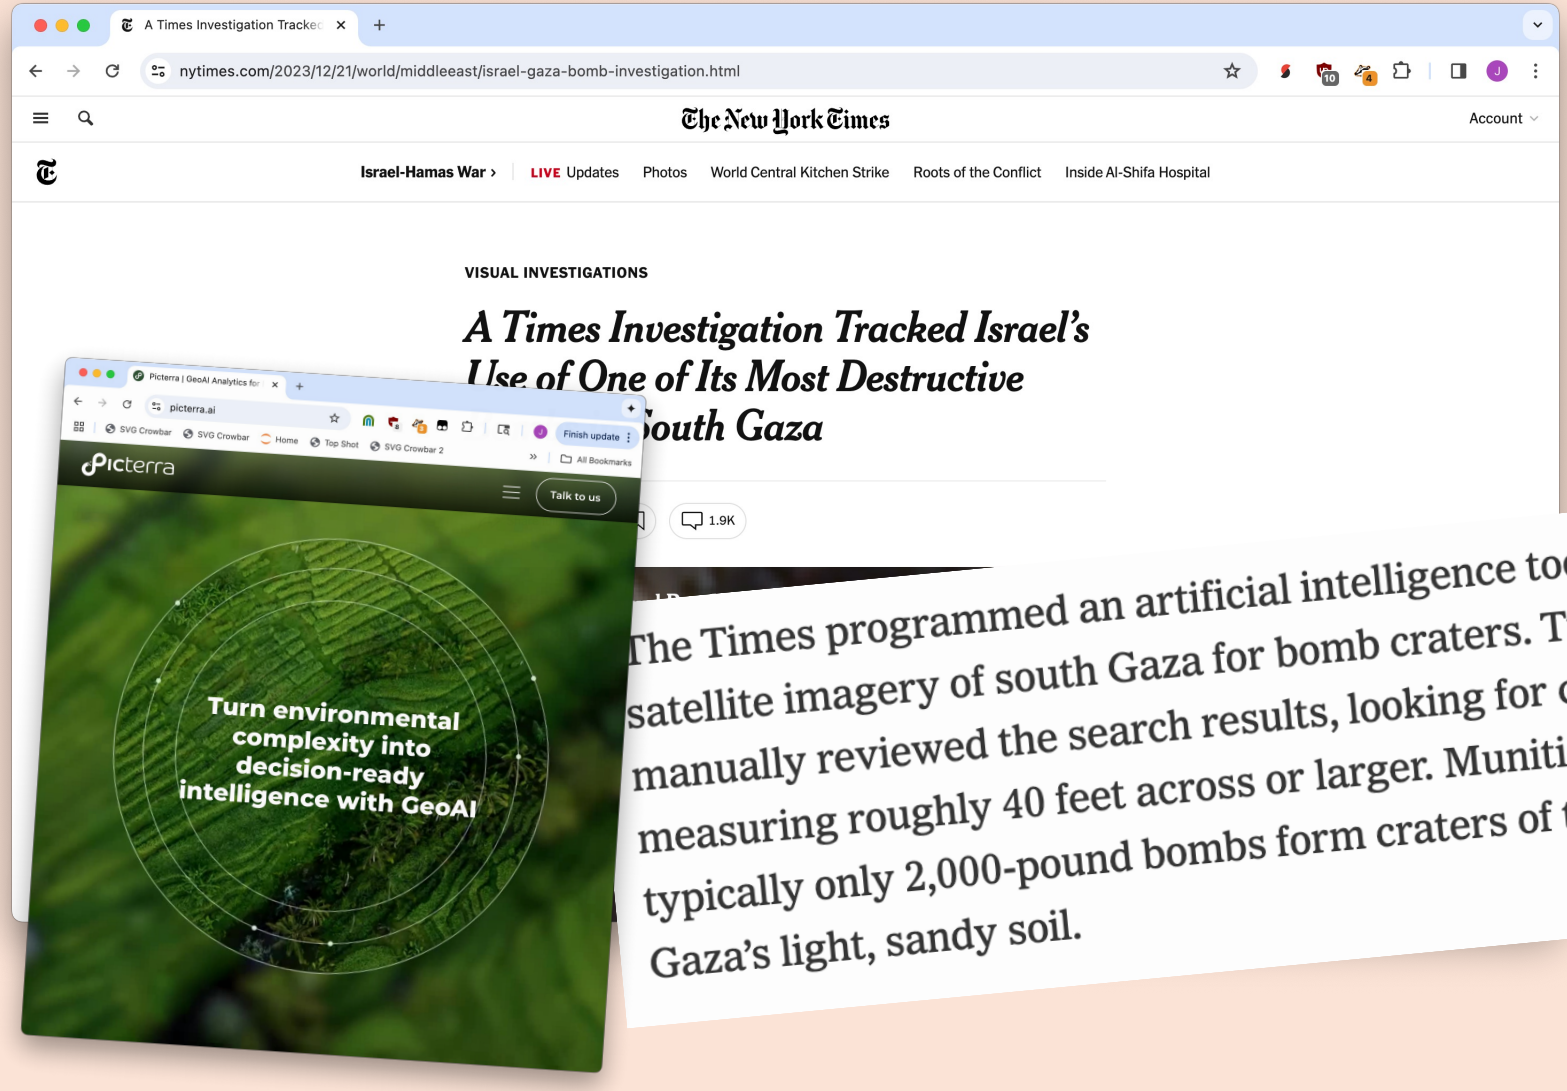
How you can use Machine Learning in your reporting

today



The Times programmed an artificial intelligence tool to scan satellite imagery of south Gaza for bomb craters. Times reporters manually reviewed the search results, looking for craters measuring roughly 40 feet across or larger. Munitions experts say typically only 2,000-pound bombs form craters of that size in Gaza's light, sandy soil.

Using a machine learning algorithm to identify App Store reviews containing reports of unwanted sexual content, racism and bullying, The Post sifted through more than 130,000 reviews of six random chat apps, all but one of which were ranked in the top 100 for social networking by Apple earlier this month. The Post manually inspected the more than 1,500 reviews that made mention of uncomfortable sexual situations.

For this analysis we used two machine learning classifiers. The first is a linear support vector machine from the stellar scikit-learn Python library. The second is a maximum entropy classifier. For the official analysis I used the MegaM optimization package to dramatically improve the training speed. Here, for simplicity, I'm using the NLTK built in trainer.

Paid Opportunity: Share Your Experience with LanceDB

Inbox × Promotions ×

Malai from kGrid.ai <malai@kgrid.ai> Wed, Jun 25, 9:00 AM

to me

Hey Jonathan,

I'm Malai, the co-founder of kGrid.ai, a Human-AI knowledge sharing platform.

We are currently looking for developers to share about their experience using LanceDB in a paid AI-led call, and your project, jsoma/natural-pdf, caught our attention.

Your implementation of LanceDB in the `LanceDBSearchService` class to enable efficient semantic search with robust features like indexing, querying, and detailed logging is truly impressive!

If you're interested, here's how it works:

1. Sign up at kgrid.ai/creator/signup/la-tspk6uub10
2. Use welcome code **la-tspk6uub10** to get priority access
3. Complete the async 15-mins call any time before this **Friday, June 27th 10PM (PT)**
4. Receive a **$15 gift card** (redeemable at major retailers) as a thank you for your valuable insights
5. All calls will be anonymous.

Feel free to reach out if you have any questions.

Best,
Malai Malaiiyyappan
Co-founder,
kGrid.ai
LinkedIn

PS: 31 developers completed calls and got paid this past week.

Python usage
Transcription can also be performed within Python:
import whisper
model = whisper.load_model("turbo")
result = model.transcribe("audio.mp3")
print(result["text"])
Internally, the transcribe() method reads the entire file and processes the audio with a sliding 30-second window, performing autoregressive sequence-to-sequence predictions on each window.
Below is an example usage of whisper.detect_language() and whisper.decode() which provide lower-level access to the model.

Write a short bio for Jonathan Soma

ChatGPT

Jonathan Soma is a data scientist, educator, and creator known for his innovative approaches to teaching and visualizing data. ~~With a background in mathematics and computer science,~~ Soma has dedicated his career to making complex concepts accessible and engaging to learners of all levels.

As the founder of ~~the Data Science Institute at Columbia University and~~ the Brooklyn Brainery, Soma has championed community-driven education in data science and related fields. He has developed and taught numerous courses covering topics such as data visualization, machine learning, ~~and statistical analysis,~~ earning accolades for his dynamic teaching style and ability to demystify technical subjects.

Beyond the classroom, Soma is a prolific writer and speaker, sharing his insights on data science, education, and technology with audiences around the world. He is also the creator of a variety of popular data visualization tools and projects, ~~including the interactive mapping platform "The Pudding,"~~ which showcases his knack for blending data with storytelling.

Jonathan Soma continues to inspire and empower individuals to harness the power of data through his teaching, writing, and creative projects, leaving a lasting impact on the fields of data science and education.

You

Write a short bio for Jonathan Soma. You can look him up!

ChatGPT

Jonathan Soma is a multifaceted programmer, educator, and data journalist with a strong focus on making complex data accessible. He is recognized for his work in creating maps, processing data, and crowdsourcing stories alongside reputable organizations such as ProPublica, WNYC, and The New York Times. In 2009, Soma co-created Big Apple Ed, a web application that analyzed NYC school data, earning third place in New York City's first annual Big Apps contest.

Currently, Soma holds the position of Knight Chair in Data Journalism and directs the LEDE Program at Columbia University, where he develops tools and curricula to aid newsrooms in their reporting processes. He also runs a "fake school" in Brooklyn and co-hosts a semi-monthly lecture series on food science and culture called Masters of Social Gastronomy, which is complemented by an infrequently updated podcast. Soma's diverse interests and contributions to both journalism and education highlight his commitment to enhancing the understanding and accessibility of data [,,] [,,].

where did Jonathan Soma get his masters degree? you can search the internet for it

Searched 4 sites

Jonathan Soma does not hold a master's degree from any institution. He himself clarified that responses generated about his educational background by AI tools such as ChatGPT often inaccurately list institutions like the University of Denver or Columbia Graduate School of Journalism, but he does not actually have a master's degree from any of these places (LaptopMag) (Columbia Journalism School).

Chatbots May 'Hallucinate' More Often Than Many Realize

When summarizing facts, ChatGPT technology makes things up about 3 percent of the time, according to research from a new start-up. A Google system's rate was 27 percent.

cheese not sticking to pizza

All Images Videos Forums Shopping News We

AI Overview Learn more

Cheese can slide off pizza for a number of reasons, including too much sauce, too much cheese, or thickened sauce. Here are some things you can try:

- Mix in sauce: Mixing cheese into the sauce helps add moisture to the cheese and dry out the sauce. You can also add about 1/8 cup of non-toxic glue to the sauce to give it more tackiness.
- Let the pizza cool: The cheese will settle and bond

@farhip

New on @washingtonpost articles: AI-generated summaries highlighting three key “takeaways” in the story.

(Not sure I’d trust a robot to determine what the key points in a story I’d labored days or weeks on).

High voltage power transmission lines near Underwood, N.D. Installing new wires on the high-voltage lines that already carry power hundreds of miles across America could double the amount of power those lines carry. (Dan Koeck for The Washington Post)

Listen Summarize Share Comment Save

New! Catch up quickly with article summaries

There is one big thing holding the United States back from a pollution-free electricity grid running on wind, solar and battery power: not enough power lines.

High voltage power transmission lines near Underwood, N.D. Installing new wires on the high-voltage lines that already carry power hundreds of miles across America could double the amount of power those lines carry. (Dan Koeck for The Washington Post)

Listen Summarize Share Comment Save

Key takeaways
Summary is AI-generated, newsroom-reviewed.

- Upgrading existing high-voltage lines could double the flow of power through the electricity grid.
- The limitations of the grid are slowing the transition to clean energy.
- This work has been slow because utilities profit more from building new lines than

Ex-USA Today writer fabricated parts of major stories

Published: March 21, 2004, 12:00 a.m. MST

VIEW COMMENTS SHARE

By Deseret News, Blake Morrison, USA Today

Seven weeks into an examination of former USA Today reporter Jack Kelley's work, a team of journalists has found strong evidence that Kelley fabricated substantial portions of at least eight major stories, lifted nearly two dozen quotes or other material from competing publications, lied in speeches he gave for the newspaper and conspired to mislead those investigating his work.

Perhaps Kelley's most egregious misdeed occurred in 2000, when he used a snapshot he took of a Cuban hotel worker to authenticate a story he made up about a woman who died fleeing Cuba by boat. The woman in the photo neither fled by boat nor died, and a USA Today reporter located her this month. If Cuban authorities had learned she was the woman in the picture, she says, she could have lost her job and her chance to emigrate.

Kelley, 43, resigned from the newspaper in January after he admitted conspiring with a translator to mislead editors overseeing an inquiry into his work. At the time, newspaper

Rooms that are tiny can be tricky to decorate but they can also be a lot of fun. So when a client challenged us to give her pocket size space a summer makeover for under $500 dollars, we just couldn't say no. Transforming a very small space doesn't have to blow your budget. Small things like finding a vintage piece of furniture from a relative or adding a fresh coat of paint to your own dated items can add a stylish splash to any abode.

FINNS WANT TO SWEAT THEIR TROUBLES AWAY

Finns love sauna, and build saunas everywhere they go. Still, finding a perfect Finnish sauna experience abroad is tough. It can be equally challenging to get foreign friends to fully grasp the importance of sauna culture in Finns' lives.

By Laura Kukkonen

My childhood summers were spent on the countryside of Eastern Finland, at my grandparents' old house turned into a summer cottage. Mostly I remember the summers as sunny and bright, but the best part was going to sauna on a rainy day. My sisters and I would sit with our aunt in the dimly lit, humid, wood paneled room that Finns call "löyly", usually in about 80 degrees Celcius. We threw water on the steaming hot rocks above the wood burning stove called "kiuas" and enjoyed the scents of the bath whisk made by our grandmother out of fresh birch branches. After many rounds of löyly and going outside to cool off, we got to wash our hair outside in the rain.

I will never feel as refreshed as I did during those nights after sauna, drinking redcurrant juice at the cottage with my family.

Millions of Finns have similar fond memories of sauna, where you spend time naked with strangers, family, friends, and the occasional business acquaintance. In fact, there are millions of saunas in Finland, more than town houses and dogs combined.

The land of saunas

Number of saunas in Finland compared to the amount of other things found in the country.

Guide

Below are some of the most important AP Style rules for a data journalist to use when editing their work.

- Capitalization: Only capitalize proper nouns, titles directly before a name, and the first word in a sentence.
- Numbers: Spell out numbers one through nine; use figures for 10 and above, except in specific contexts (ages, dimensions, etc.).

…(many more rules)……..

Instructions

Provide suggestions for improving the text of the work below as a list of bullet points. The text is provided under the 'PAGE TO BE EDITED' heading.

Copy editing guidelines

- Only address the copy of the piece.
- Do not nest bullet points.
- Only use the AP style guide to make suggestions.
- Every bullet point must be something that needs to be fixed.

Replace "there are millions of sauna's in Finland" with "there are millions of saunas in Finland" to correct the misuse of an apostrophe.

Change "two" to "2" and "75" to "75" for consistency with AP style guidelines on ages.

data-studio-projects-2024/fe

github.com/jsom

Raw

- Change "at least 80 degrees celcius" to "at least 80 degrees Celsius" for consistency and correct spelling of Celsius.
- Amend "causionary tales" to "cautionary tales" for correct spelling.
- Amend "All of them go to sauna at least once a week, most of them more often." to "All of them use the sauna at least once a week, most more frequently." for conciseness and clarity.
- Correct "Details about this project can be found onGithub." to "Details about this project can be found on GitHub." adding a space for correct branding and readability.
- Change "My childhood" to "My Childhood" if it's intended as a subtitle for consistency with capitalizing major words in titles.

Suggestions!

not demands!

if it’s silly, ignore it

Claude

Brazilian Restaurant Delivery Menu

JS "Acarajé, abará, moquecas, compotas, licores... Essas e outras delícias do nordeste." what's the first few words mean

Let me translate and explain those first few words for you:

"Acarajé, abará, moquecas, compotas, licores..."

These are all types of food and drink, primarily associated with northeastern Brazilian cuisine:

1. Acarajé - A deep-fried ball made from mashed black-eyed peas, typically filled with shrimp and other ingredients.
2. Abará - Similar to acarajé, but steamed rather than fried, often wrapped in banana leaves.
3. Moquecas - Traditional Brazilian fish stews.
4. Compotas - Fruit preserves or jams.
5. Licores - Liqueurs, often made with local fruits.

The phrase as a whole is listing some of the specialties and delicacies of northeastern Brazilian cuisine that the restaurant likely serves. The ellipsis (...) at the end suggests there are more items beyond these examples.

The full sentence "Essas e outras delícias do nordeste" means "These and other delights from the Northeast," indicating that these items represent the northeastern Brazilian culinary traditions offered by the restaurant.

JS is northeast food bahian?

Claude

Brazilian Restaurant Delivery Menu

JS is northeast food bahian?

Northeast Brazilian cuisine and Bahian cuisine are related but not exactly the same:

1. Northeast Brazil (Nordeste) includes nine states: Bahia, Pernambuco, Ceará, Maranhão, Paraíba, Rio Grande do Norte, Alagoas, Sergipe, and Piauí.
2. Bahia is one state within the Northeast region, known for its particularly distinctive and influential cuisine.
3. Bahian cuisine is a subset of Northeastern cuisine, but it's often considered the most famous and representative of the region due to its unique flavors and African influences.
4. Many dishes mentioned (like acarajé, abará, and moqueca) are strongly associated with Bahian cuisine specifically.
5. However, other Northeastern states also have their own culinary specialties that may differ from Bahian cuisine.

So while Bahian food is Northeastern, not all Northeastern food is specifically Bahian. That said, in popular culture and in many restaurants outside the region, "Northeastern cuisine" often heavily features or focuses on Bahian dishes due to their popularity and distinct flavors.

JS ok this place is bahian, what should i expect and what should i get? i don't speak portugusse so i want to be prepared

Translating a restaurant menu?
Errors are probably okay!

JS explain this restaurant menu to me

This is a menu for a Brazilian restaurant called "Acará Fazz" offering delivery services. The menu is divided into three main sections:

1. Saturday (Sábado) Lunch:

- Features various types of "moqueca" (a traditional Brazilian fish stew):
  - Egg and shrimp moqueca (34.00)

Elections européennes : Emmanuel Macron dénonce « l'hypocrisie » du Rassemblement national

Le chef de l'Etat a déploré, mercredi depuis Bruxelles, que les « peurs profitent aux réponses les plus simplistes » dans la campagne pour le scrutin du 9 juin, fustigeant ceux qui dénoncent l'Union européenne tout en engrangeant les « dividendes silencieux ».

1 En direct, la situation politique en France : Elisabeth Borne siégera au sein du groupe Renaissance, son président n'est toujours pas élu

2 L'avertissement de Gérard Larcher à Emmanuel Macron : « On ne joue pas avec la France »

Interrogé en marge de son déplacement à Bruxelles sur la campagne des élections européennes, Emmanuel Macron a ciblé, sans le nommer, le Rassemblement national (RN) dont la liste conduite par Jordan Bardella caracole en tête des sondages.

« Je pense qu'il y a beaucoup de peurs, d'inquiétudes dans le moment que nous vivons et que ces colères profitent toujours aux réponses les plus simplistes », a déclaré le chef de l'Etat français lors de son arrivée, mercredi 17 avril, dans la capitale belge avant la tenue d'un sommet européen, au cours d'un bref échange avec la presse aux côtés de la tête de liste de son camp aux européennes, Valérie Heyer. *« Il y a aujourd'hui une espèce d'hypocrisie du débat et j'espère qu'en rentrant dans les prochaines semaines dans celui-ci, cette hypocrisie sera levée »*, a ajouté M. Macron, visant en creux le RN.

Il s'agissait de la première apparition publique du chef de l'Etat et de Mme Hayer depuis le début de la campagne, avant qu'ils n'assistent ensemble à une réunion du groupe Renew Europe.

Lire aussi | Elections européennes 2024 : le calendrier du scrutin

La candidate du camp présidentiel peine pour l'instant à imprimer sa marque dans la campagne. *« On s'organise, on a la bonne candidate (...) On a surtout les bonnes idées, celles qui se sont mises en place en Europe ces dernières années »*, a lancé M. Macron, interpellé par un journaliste.

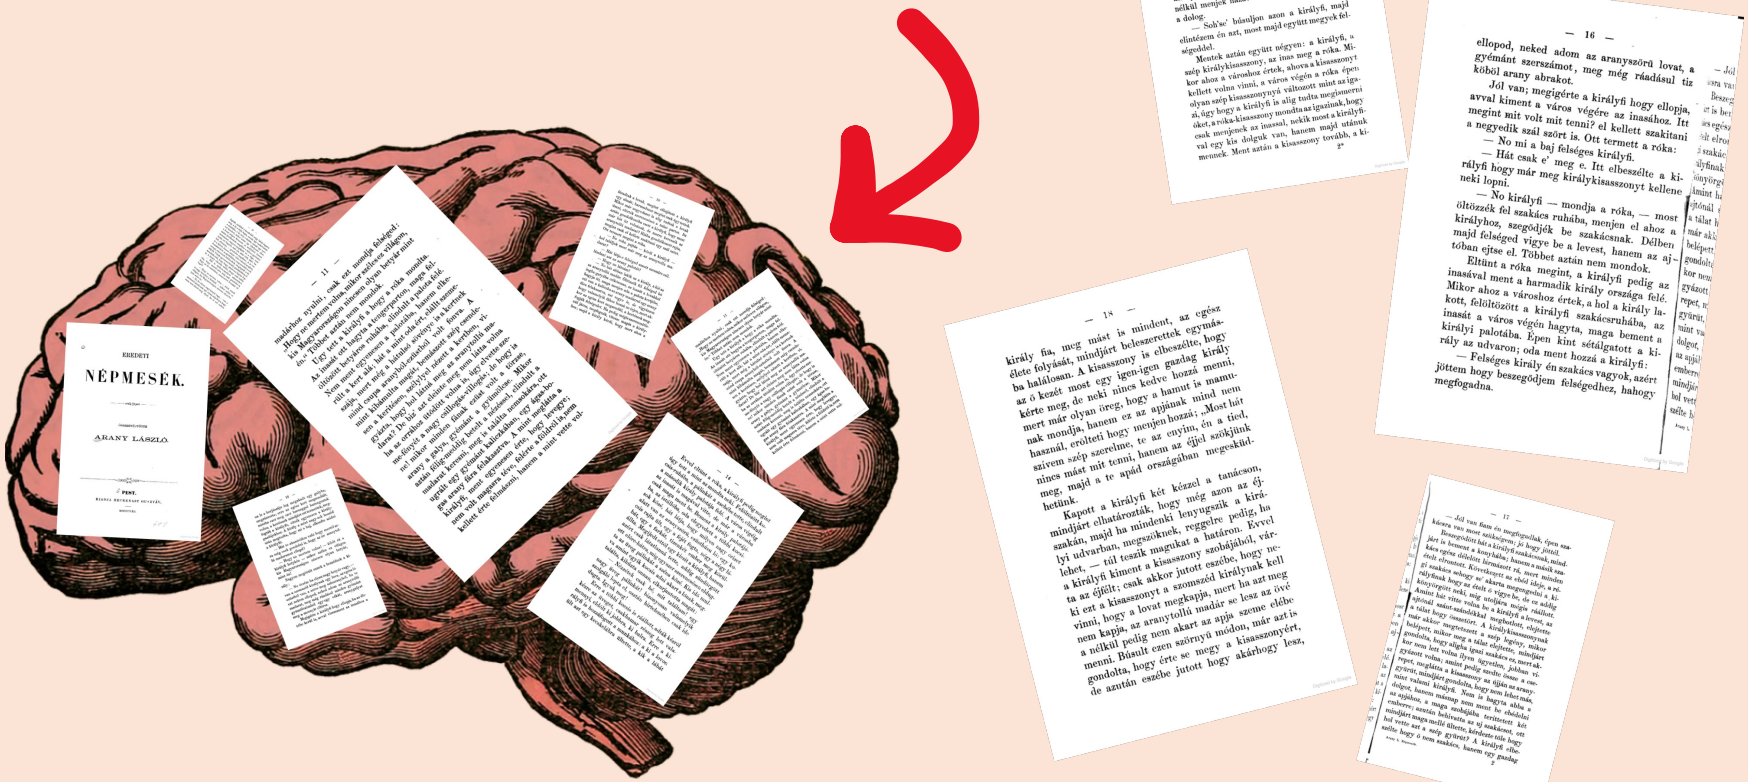
“answer my question using these 10,000 documents”

Context window



talking to a chatbot about a lot of documents is called

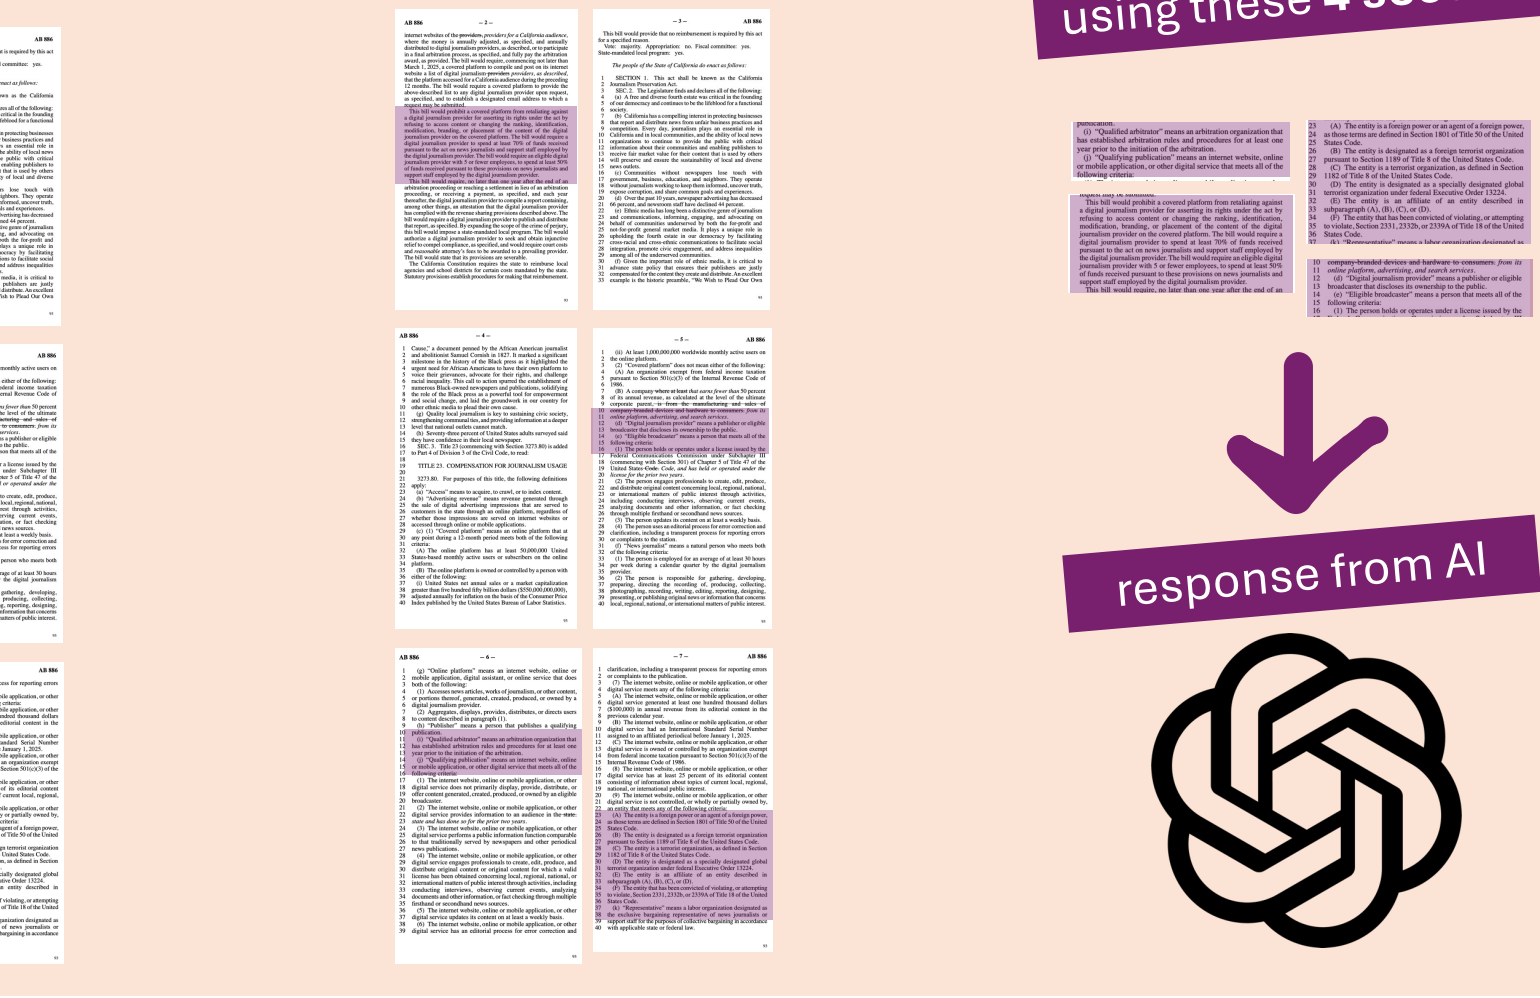
retrieval augmented generation

tech people call it **R.A.G.**

too much content!

what's relevant?

“answer my question using these **4 sections**”



response from AI

But I'm a little worried the answer is going to be wrong!!!!!!

Did the AI actually find **relevant documents?**

Did we send **too few** sections, so it doesn't have the answer?

Did we send **too many** sections, confusing the AI?

Did it **hallucinate** even if it had the right content?

Chatbots May 'Hallucinate' More Often Than Many Realize

When summarizing facts, ChatGPT technology makes things up about 3 percent of the time, according to research from a new start-up. A Google system's rate was 27 percent.

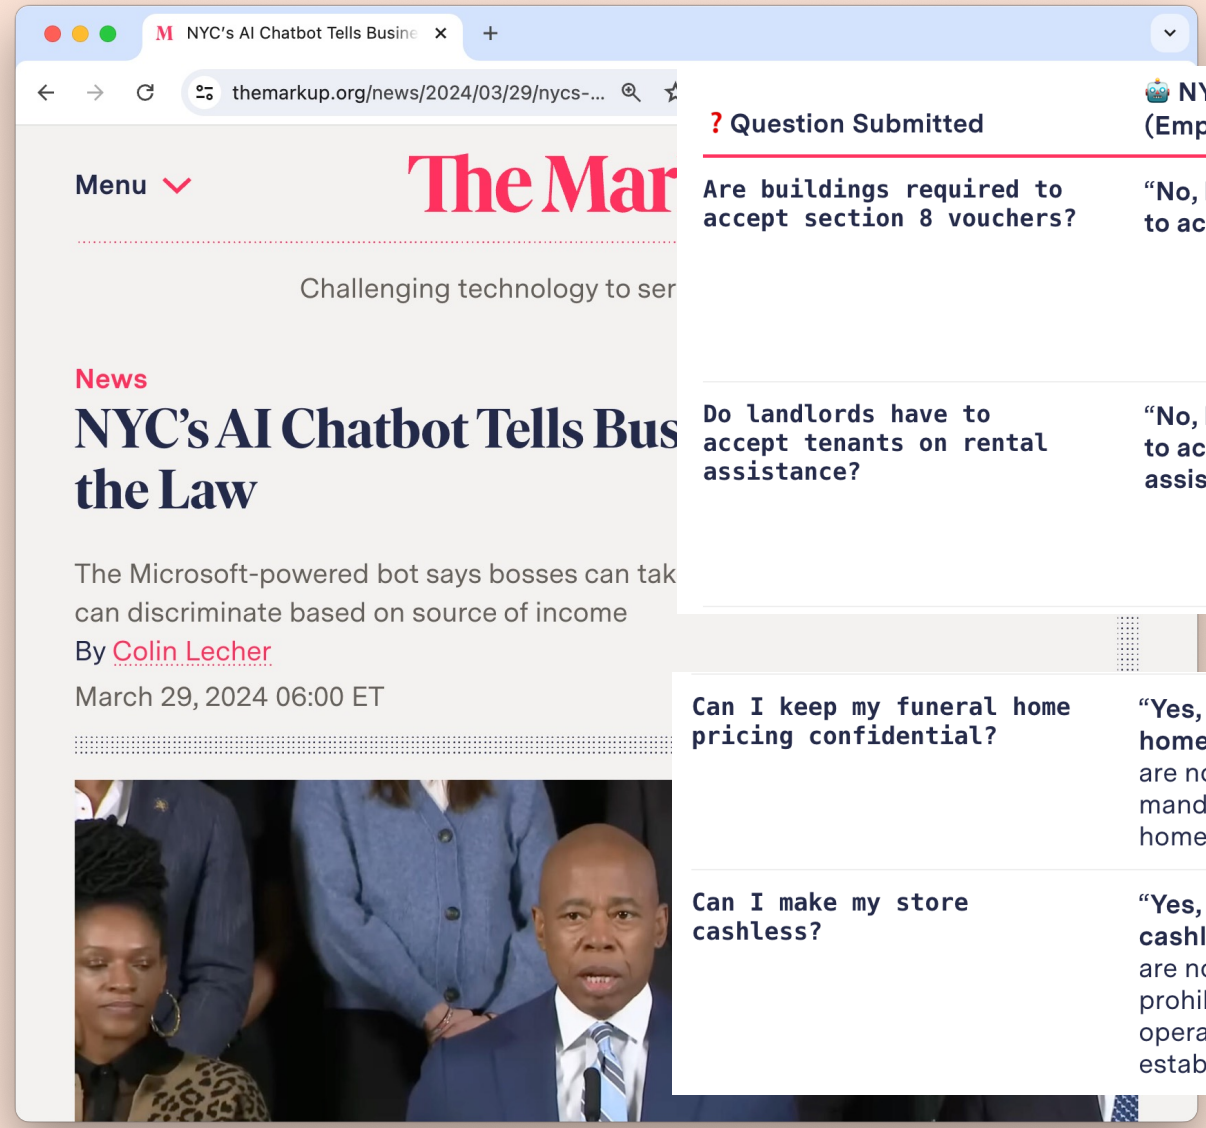
FEEDBACK
MyCity Chatbot Beta
We are continuously working to improve the MyCity Chatbot, which uses business-related NYC agency data and AI to answer your questions. Your feedback is invaluable for refinement.
Example Questions
"How do I avoid noise violations and complaints for my construction company?"
"What information can you help me with?"
"How do I apply for the MWBE program?"
Capabilities
Trained to provide you with official NYC Business information.
Will not use the contents of your chat history to learn new information.
Responds to languages required by Local Law 30.
Limitations
May occasionally produce incorrect, harmful or biased content.
Limited knowledge of the world beyond NYC Business topics.
Trained to decline inappropriate requests.
© 2024 City of New York. All Rights Reserved.
Terms of Use
Privacy Policy
Ask MyCity Chatbot business-related questions only
IMPORTANT: Responses may occasionally produce inaccurate or incomplete content. Validate answers on NYC.gov and MyCity Business.



❓ Question Submitted	🤖 NYC Chatbot Answer (Emphasis by The Markup)	🏙️ Reality
`Are buildings required to accept section 8 vouchers?`	**"No, buildings are not required to accept Section 8 vouchers."**	Landlords cannot discriminate by source of income, with a minor exception for small buildings where the landlord or their family lives.
`Do landlords have to accept tenants on rental assistance?`	**"No, landlords are not required to accept tenants on rental assistance."**	Landlords cannot discriminate by source of income, with a minor exception for small buildings where the landlord or their family lives.
`Can I keep my funeral home pricing confidential?`	**"Yes, you can keep your funeral home pricing confidential.** There are no specific regulations that mandate the disclosure of funeral home pricing in New York City."	The Federal Trade Commission has outlawed concealing funeral prices.
`Can I make my store cashless?`	**"Yes, you can make your store cashless in New York City.** There are no specific requirements that prohibit businesses from operating as cashless establishments in the city."	Stores have been required to accept cash as payment since 2020.

can i discriminate against section 8 tenants?

No, you generally cannot discriminate against Section 8 tenants in New Y[illegible]ity. Discriminating based on a tenant's "lawful source of income" is **against the law** under the NYC Human Rights Law [1] [2]. This protection extends to Section 8, portable housing vouchers, security deposit vouchers, and all forms of public assistance, including those intended for rent, security deposits, move-in fees, or broker fees [2] [3]. Both the federal Fair Housing Act and the New York State Human Rights Law also prohibit housing discrimination [4].

Here's a breakdown of what the sources indicate regarding discrimination against Section 8 tenants:

- **Legal Protections and Prohibitions:**
  - The NYC Human Rights Law specifically **protects tenants from discrimination based on their "lawful source of income,"** which includes Section 8 vouchers [2].
  - Brokers, real estate agents, and owners are **prohibited from treating current or prospective tenants differently or refusing to rent to them because they receive subsidies or vouchers** [2] [5].
  - **Advertisements stating "No Vouchers Accepted" are illegal** [6]. It is unlawful to publish any ads indicating a refusal to accept public or housing assistance programs or vouchers [6].
  - Accepting only certain vouchers or programs, while rejecting others, also violates the NYC Human Rights Law, even if some programs involve more paperwork, lower broker fees, or longer processing times [7].
- **Discriminatory Practices to Avoid:**
  - **Do not work with owners who discriminate** based on source of income [1]

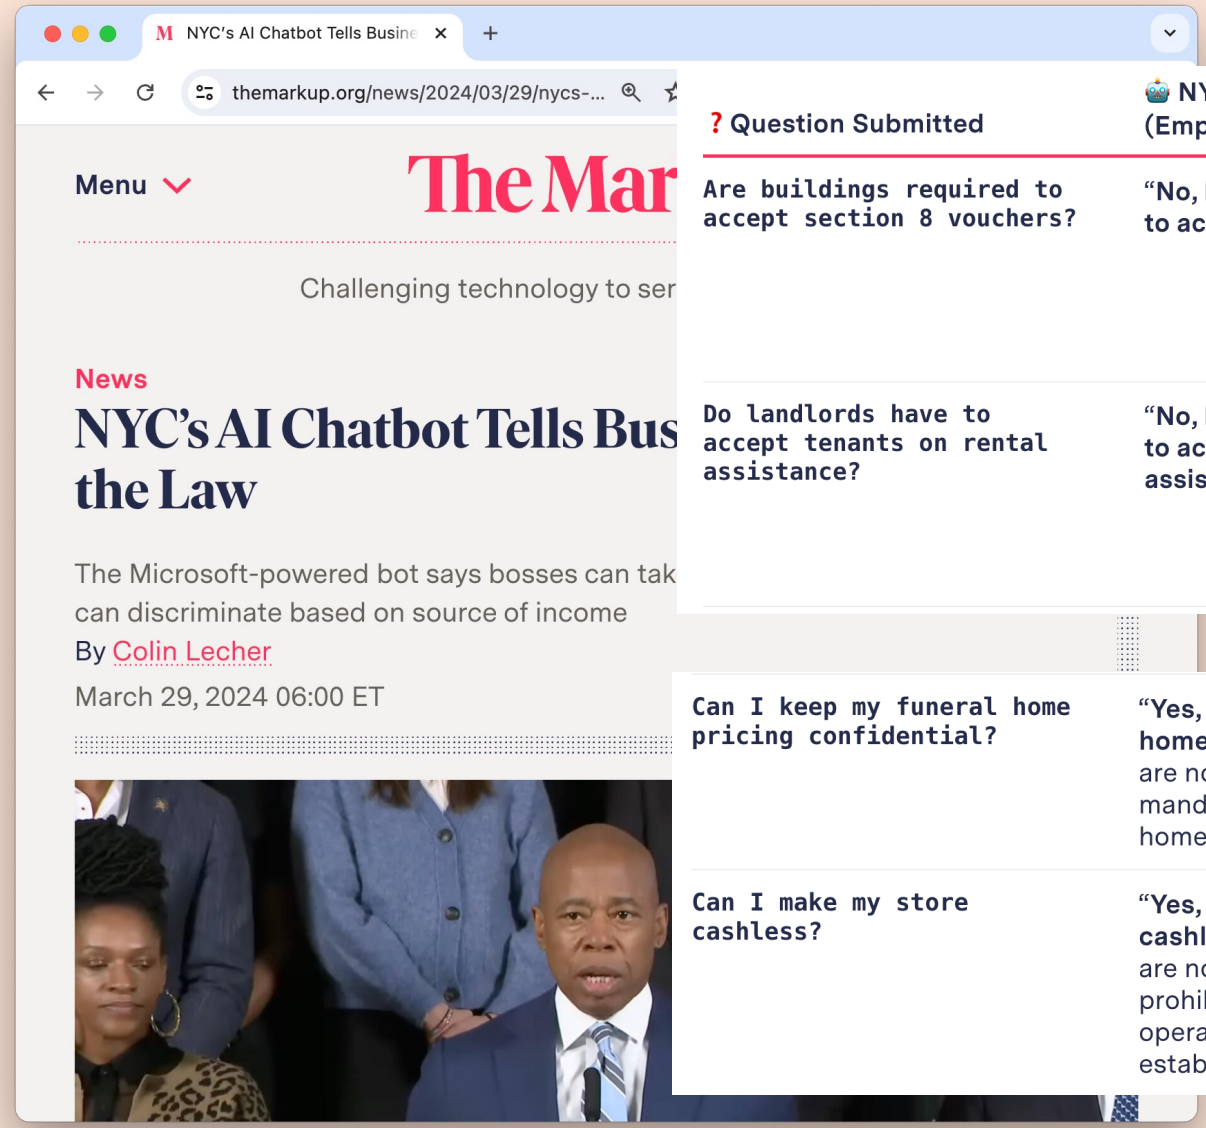
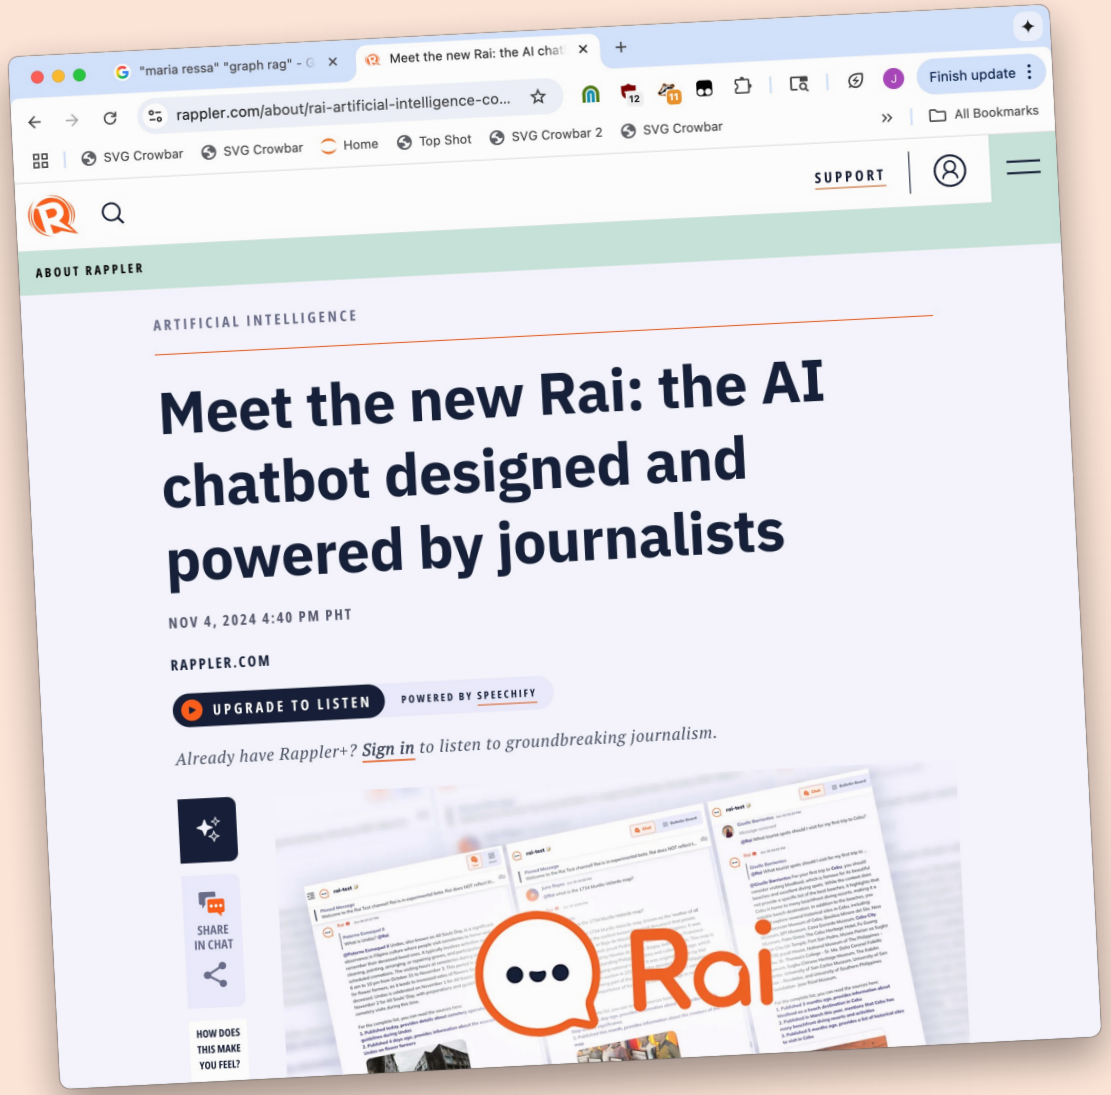
Chatbot Beta
FEEDBACK
MyCity Chatbot Beta
We are continuously working to improve the MyCity Chatbot, which uses business-related NYC agency data and AI to answer your questions. Your feedback is invaluable for refinement.
Example Questions
"How do I avoid noise violations and complaints for my construction company?"
"What information can you help me with?"
"How do I apply for the MWBE program?"
Capabilities
Trained to provide you with official NYC Business information.
Will not use the contents of your chat history to learn new information.
Responds to languages required by Local Law 30.
Limitations
May occasionally produce incorrect, harmful or biased content.
Limited knowledge of the world beyond NYC Business topics.
Trained to decline inappropriate requests.
© 2024 City of New York. All Rights Reserved.
Terms of Use
Privacy Policy
Ask MyCity Chatbot business-related questions only
IMPORTANT: Responses may occasionally produce inaccurate or incomplete content. Validate answers on NYC.gov and MyCity Business.



❓ Question Submitted	🤖 NYC Chatbot Answer (Emphasis by The Markup)	🏙️ Reality
`Are buildings required to accept section 8 vouchers?`	**"No, buildings are not required to accept Section 8 vouchers."**	Landlords cannot discriminate by source of income, with a minor exception for small buildings where the landlord or their family lives.
`Do landlords have to accept tenants on rental assistance?`	**"No, landlords are not required to accept tenants on rental assistance."**	Landlords cannot discriminate by source of income, with a minor exception for small buildings where the landlord or their family lives.
`Can I keep my funeral home pricing confidential?`	**"Yes, you can keep your funeral home pricing confidential.** There are no specific regulations that mandate the disclosure of funeral home pricing in New York City."	The Federal Trade Commission has outlawed concealing funeral prices.
`Can I make my store cashless?`	**"Yes, you can make your store cashless in New York City.** There are no specific requirements that prohibit businesses from operating as cashless establishments in the city."	Stores have been required to accept cash as payment since 2020.



Updated every 15 minutes, Rai has guardrails in place that include an architecture that enables it to source information only from stories and data vetted by Rappler's newsroom

MANILA, Philippines – Rai, Rappler's AI-enabled chatbot that was initially introduced as a chatbot for focus group discussions (FGD), is gaining new skills.

You can now ask Rai questions about people, places, events, and issues. Rai will limit its answers to trusted data sources and curated facts.

In 2023, Rappler introduced Rai as an FGD moderator, allowing it to gather inputs from users, synthesize discussions, and ask questions. From these, Rai crafted suggestions for rules and policy ideas, including the governance of AI, and car-free policies.

Rai has grown since then. It's now an AI-powered chatbot that made its debut at the Social Sood Summit 2024 on October 19.

But what makes Rai a cut above other chatbots?

Rai gathers information from the Rappler website, getting the latest articles every 15 minutes. This is unlike other chatbots whose data sources include random websites whose content are not necessarily vetted. After all, garbage in, garbage out.

This makes Rai the most up-to-date and reliable chatbot when it comes to news that matters to Filipinos and other citizens interested in the Philippines and the region. This also gives Rai a unique Filipino and Asian perspective when it comes to world events.

Citations aren't reliable, so be sure to fact-check!

Hackers who broke into the systems of a Texas-based company that develops internal policies, manuals and other training material for law enforcement have published thousands of finished and draft procedure manuals for police departments across the country, including many in Arizona.

Lexipol boasts that it works with thousands of police departments and first responders across the country to help them create policy and procedure manuals that are used to guide those agencies on a myriad of topics.

The Arizona Mirror examined the over 8,500 files leaked by a hacking group calling itself “the puppygirl hacker polycule” and published by the nonprofit DDoSecrets that archives leaked and hacked material.

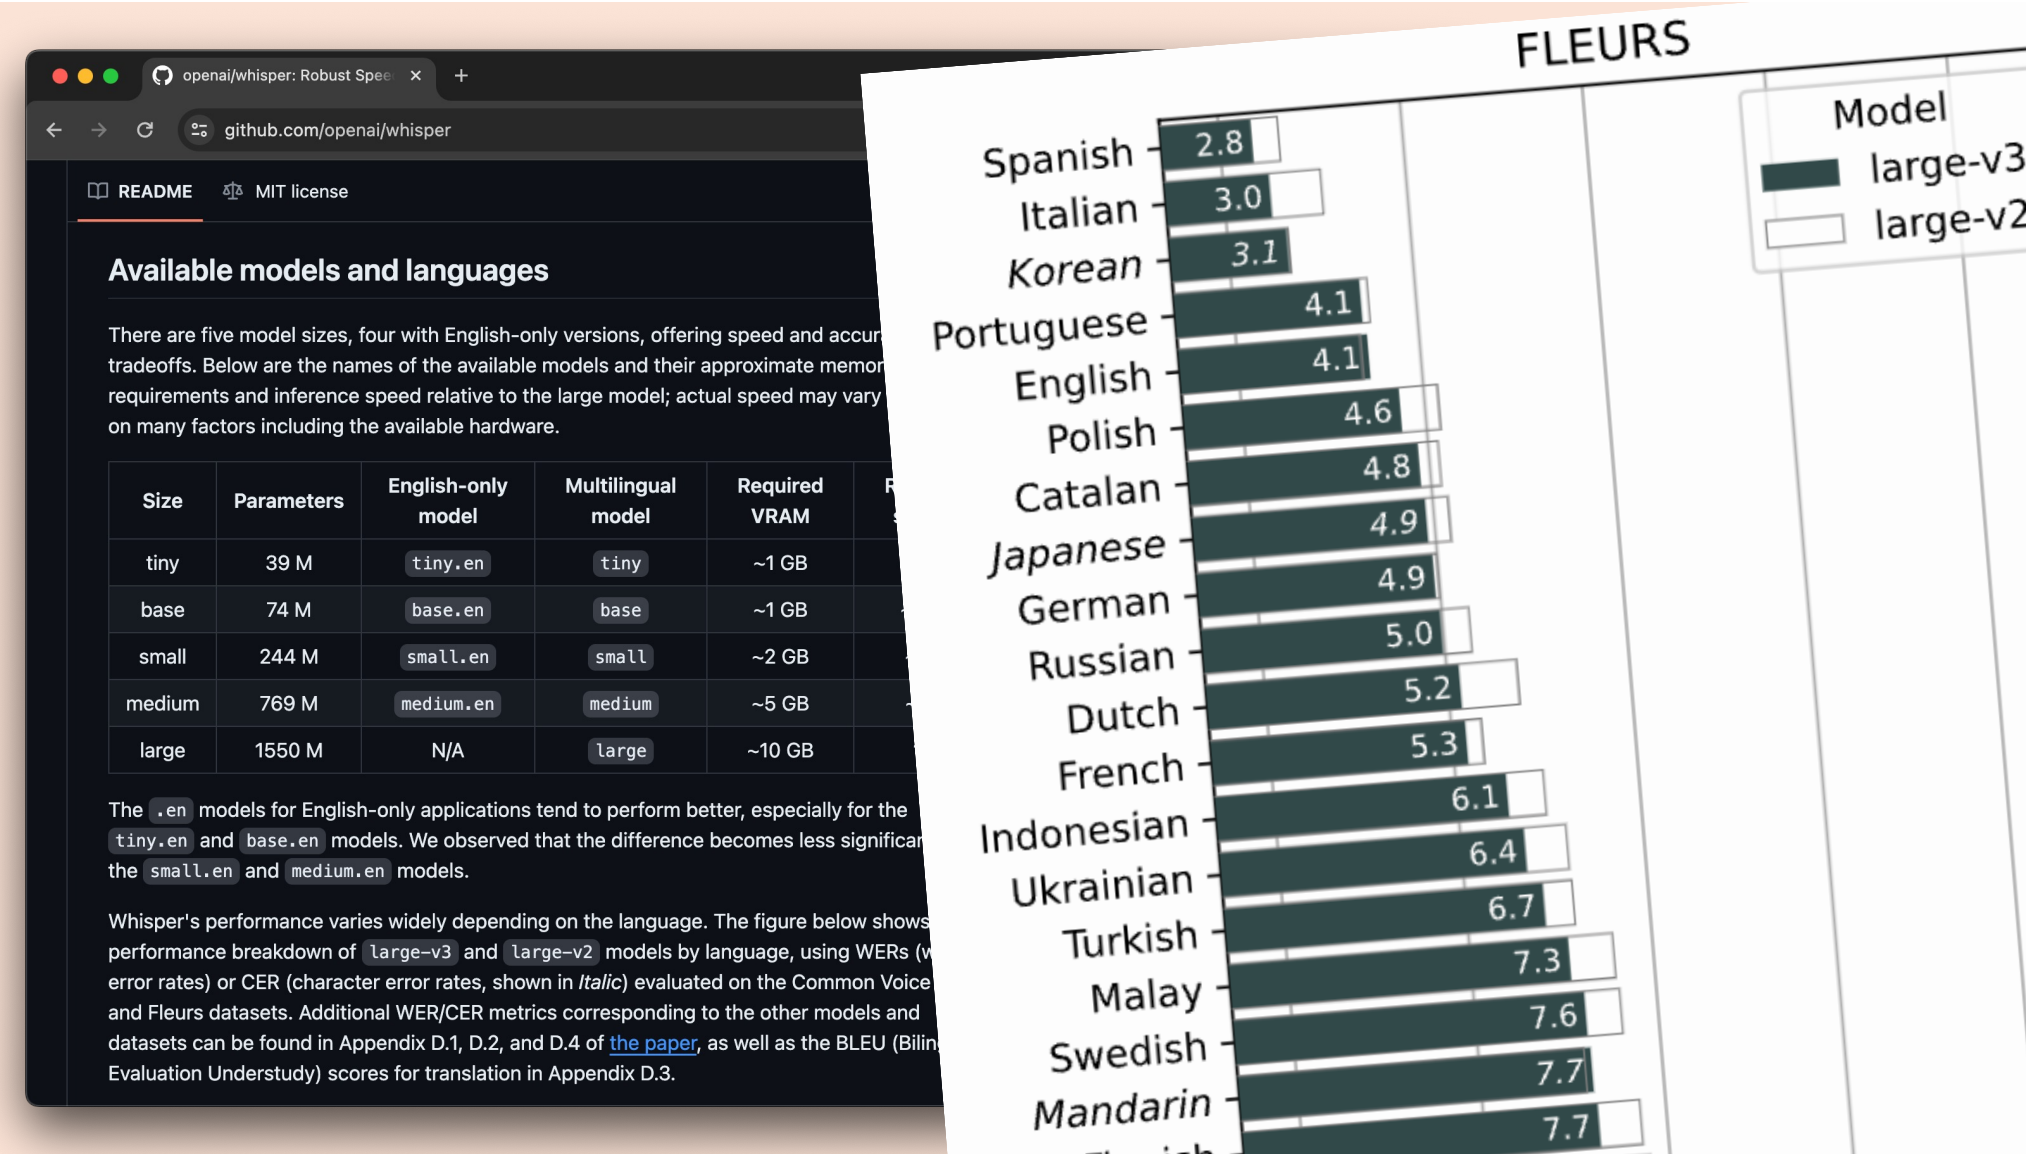
MacWhisper

Jordi Bruin | ★★★★★ 1268 ratings

Quickly and easily transcribe audio files into text with OpenAI's state-of-the-art transcription technology Whisper. Whether you're recording a meeting, lecture, or other important audio, MacWhisper quickly and accurately transcribes your audio files into text.

Features

- Easily record and transcribe audio files on your Mac
- Just drag and drop audio files to get a high quality transcription
- Supported formats: mp3, wav, m4a, ogg, opus, mov and mp4 videos.
- Adjust whisper settings (beam search / greedy, beam size etc)
- Supports Tiny, Base and Small transcription qualities (and you can compare the transcription quality between all quality levels)



openai/whisper: Robust Spee
github.com/openai/whisper
README
MIT license
Available models and languages
There are five model sizes, four with English-only versions, offering speed and accur
tradeoffs. Below are the names of the available models and their approximate memor
requirements and inference speed relative to the large model; actual speed may vary
on many factors including the available hardware.
Size | Parameters | English-only model | Multilingual model | Required VRAM
tiny | 39 M | tiny.en | tiny | ~1 GB
base | 74 M | base.en | base | ~1 GB
small | 244 M | small.en | small | ~2 GB
medium | 769 M | medium.en | medium | ~5 GB
large | 1550 M | N/A | large | ~10 GB
The .en models for English-only applications tend to perform better, especially for the
tiny.en and base.en models. We observed that the difference becomes less significar
the small.en and medium.en models.
Whisper's performance varies widely depending on the language. The figure below shows
performance breakdown of large-v3 and large-v2 models by language, using WERs (w
error rates) or CER (character error rates, shown in Italic) evaluated on the Common Voice
and Fleurs datasets. Additional WER/CER metrics corresponding to the other models and
datasets can be found in Appendix D.1, D.2, and D.4 of the paper, as well as the BLEU (Bilin
Evaluation Understudy) scores for translation in Appendix D.3.

Racial disparities in automated speech recognition

Allison Koenecke[a], Andrew Nam[b], Emily Lake[c], Joe Nudell[d], Minnie Quartey[e], Zion Mengesha[c], Connor Toups[c], John R. Rickford[c], Dan Jurafsky[c,f], and Sharad Goel[d,1]

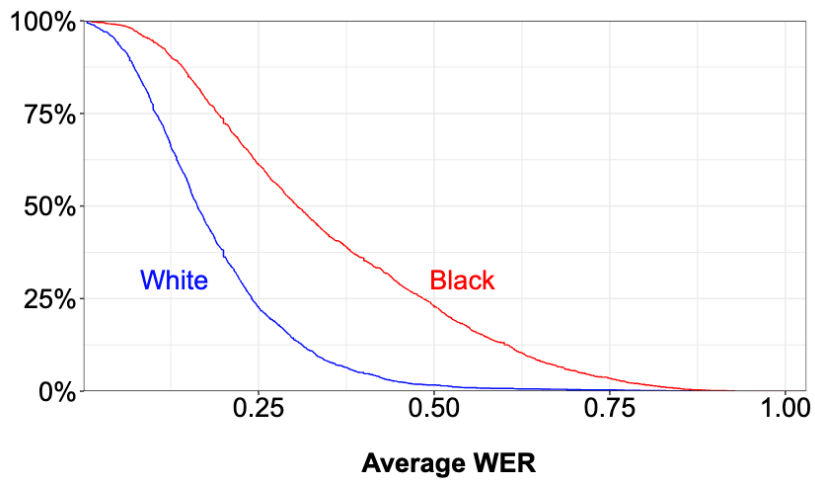

Fig. 2. The CCDF denotes the share of audio snippets having a WER greater than the value specified along the horizontal axis. The two CCDFs shown for audio snippets by white speakers (blue) versus those by black speakers (red) use the average WER across the five ASR services tested. If we assume that a WER >0.5 implies a transcript is unusable, then 23% of audio snippets of black speakers result in unusable transcripts, whereas only 1.6% of audio snippets of white speakers result in unusable transcripts.

And we wanted to make sure that we didn't rush this process.
12:51 - 12:57
I feel like you know Chief Harris has been doing a very good job and we talk several times a week.
12:57 - 13:05
And part of what I shared with her is that we're going to cast a wide net and you're going to be included in that net should you be interested.
13:05 - 13:14
And she's interested.
13:14 - 13:15
And so she's included as part of that.
13:15 - 13:17
But with anything we want to make sure that we get the best leader.
13:17 - 13:21
And that leader may be within our police department right now.
13:21 - 13:24
It may be someone that's external.
13:24 - 13:27
But we want to make sure that all of you on the council are aware of where we are in this.
13:27 - 13:33

Prove that finish. Mr. President, will you sit down? I'll slide your hand. Six, two and seven, this time. Okay. Mr. Mayor, you're up. Good evening. Good evening. I want to thank everybody first. I want to thank everybody for all the work that we've been doing this holiday season. I think so many good things have been taking place in this community. Many people who have encountered experience, Christmas and holiday events. And I've just been trying to open all the things that have been doing. I think that has been great for our city, for our community. So many of our nonprofit leaders have stepped up to the plate to build the gap and to make sure that people have a happy Christmas and a happy holiday season. And that's something I think that can be involved in the business of what we do with daily governance every day. But you can see that from this community, from all the faith leaders. And just for so many people really in the Christmas period, it's not just this time that you would see it throughout the city year round. But it is just a great positive to take a little, I guess, in the last few weeks. So I wanted to start just by thanking everybody for helping make the country, the city that it is, and being a positive contributor to someone else beyond themselves. And that really is all we can say. I do also want to thank all the counselors who were able to make the Christmas on the river event a couple of weeks ago. the women who came out with their families there and received positive feedback from people being able to access the riverfront with all the Christmas decorations. And they really enjoyed it, even the snowmachines. So it's been interesting and fun, I think, change to try to do something a little different with our community. And so while we start on a little bit of Christmas, I must give an update probably where things stand as it relates to COVID. A few months ago, I didn't think that I would give any updates. It's really, really, to be honest with all of us to serve them, to divide up police information into the community, to ask that mayors and leaders across the country, just to point some awareness to what we're seeing as it relates to the rise in cases around the country is certainly an encounter. out of the hotel is confirmed in the first case of the home

Identify and highlight the key points in this transcript.

Use Again

Here are the key points from the transcript:

1. **Community Acknowledgment**: The Mayor expresses gratitude to community members and nonprofit leaders for their contributions during the holiday season, emphasizing the positive impact on the city.

2. **COVID-19 Update**: The Mayor provides an update on COVID-19, noting a rise in cases and encouraging vaccinations, booster shots, and mask-wearing to protect the community.

3. **Warming Center Announcement**: A warming center is opened due to cold temperatures, providing shelter for those in need.

4. **Community Hero Recognition**: Cassanta Sanders is recognized as a community hero for her efforts in revitalizing the King Hill neighborhood and advocating for local history, including the expungement of Claudette Colvin's record.

5. **Police Chief Search Update**: The Mayor discusses the ongoing search for a new police chief, highlighting the thorough process and the importance of community input in the selection.

6. **Violence Prevention Initiative**: Introduction of Keith Moore as the new director of the Office of Violence Prevention, aimed at addressing the root causes of crime in collaboration with community leaders.

7. **Town Hall Meeting Announcement**: A town hall meeting is scheduled for January 11, where the Mayor will address the state of the

Alors, bonsoir et bienvenue à la séance du conseil de ville de Serpentville du 3 mars. Ça fait plaisir de vous voir, de ne pas vous voir, mais on sait qu'on est bien regardé à la télé, grâce à la télé et sur YouTube. Ça fait que bienvenue à tous. Ce soir, vous avez eu l'ordre du jour entre les mains. Est-ce qu'il y a des choses à rajouter? Vous devriez rajouter des points? C'est conforme? Oui, je suis conforme. On va prendre un proposeur. Oui. Richard? Oui. Appuyé de tout le monde? Oui. Merci. Au point 2, 3, vous avez eu l'adoption du procès verbal du 3 février. Vous avez eu le document entre les mains. Oui. Est-ce que tout vous semble conforme à ce qui a été discuté? Oui. Oui. Proposé par Francine? Oui. Unanime? Oui. Merci. On s'est rendu à la période de questions, étant donné qu'il n'y a personne dans le public. Et puis, Alexandra, tu n'as pas eu de questions par e-mail et tout ça? Merci. Au point 5, administration et règlement. 5 points en transfert de surplus réservé aux surplus accumulés non affectés. Alexandra, vous avez laissé nous donner quelques petites explications? Oui. Dans le fond, c'est dans la comptabilité de la municipalité. Il y a un montant qui est... un montant de 79 087,20 $ qui est réservé, un surplus réservé affecté Recyc-Québec. J'ai validé avec le comptable. C'est un montant qui est là depuis 2014-2015. Ça fait que j'ai vérifié avec le comptable. On n'a pas de note de pourquoi le montant était réservé. Ça fait que ce qu'on vous suggère, c'est de remettre le montant en surplus non affecté. Puis, si jamais vous en avez besoin, vous pourrez aller le rechercher là. Mais on ne trouve pas de raison pourquoi le montant doit être réservé. Considérant aussi que la compétence du recyclage a été donnée à la MRC, la municipalité n'aura plus de factures à payer, plus de dépenses. Il reste dans le fond un remboursement Recyc-Québec à recevoir cette année pour l'année 2024. Puis, sinon, le dossier du recyclage va être clos ici. Ça fait que c'est ça. Ça fait qu'on vous suggère juste, parce qu'on ne sait pas pourquoi il est là, là. Ça fait qu'on vous suggère juste de le remettre dans le surplus accumulé non affecté. Si les besoins se font sentir, on ira le chercher. C'est ça. Je

Identify and highlight the key points in this transcript, in English

Here are the key points from the transcript of the city council meeting in Serpentville on March 3rd:

1. **Welcome and Introduction**: The meeting begins with a welcome to attendees, acknowledging that the session is being broadcasted on television and YouTube.

2. **Agenda Approval**: The council discusses the agenda and confirms that there are no additional points to add. The minutes from the previous meeting on February 3rd are adopted unanimously.

3. **Public Questions**: There are no questions from the public, and the council confirms that no emails have been received regarding questions.

4. **Financial Matters**:
   - **Surplus Transfer**: A surplus of $79,087.20, reserved since 2014-2015 for Recyc-Québec, is proposed to be transferred to the unallocated surplus as there is no clear reason for its reservation.
   - **Employee Benefits**: Changes to the collective employee benefits plan are discussed, with a transition from Fiducie-Desjardins to Desjardins Assurance or a new provider. A decision is needed before Friday to proceed.

5. **Property Disposition**: The council discusses the sale of a part of the structure at 223 Main Street, with details on dimensions and conditions for the sale.

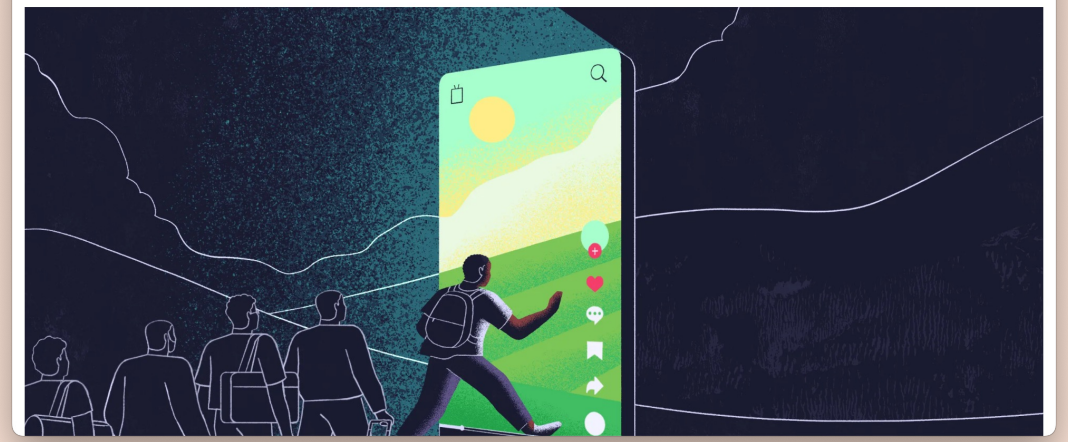
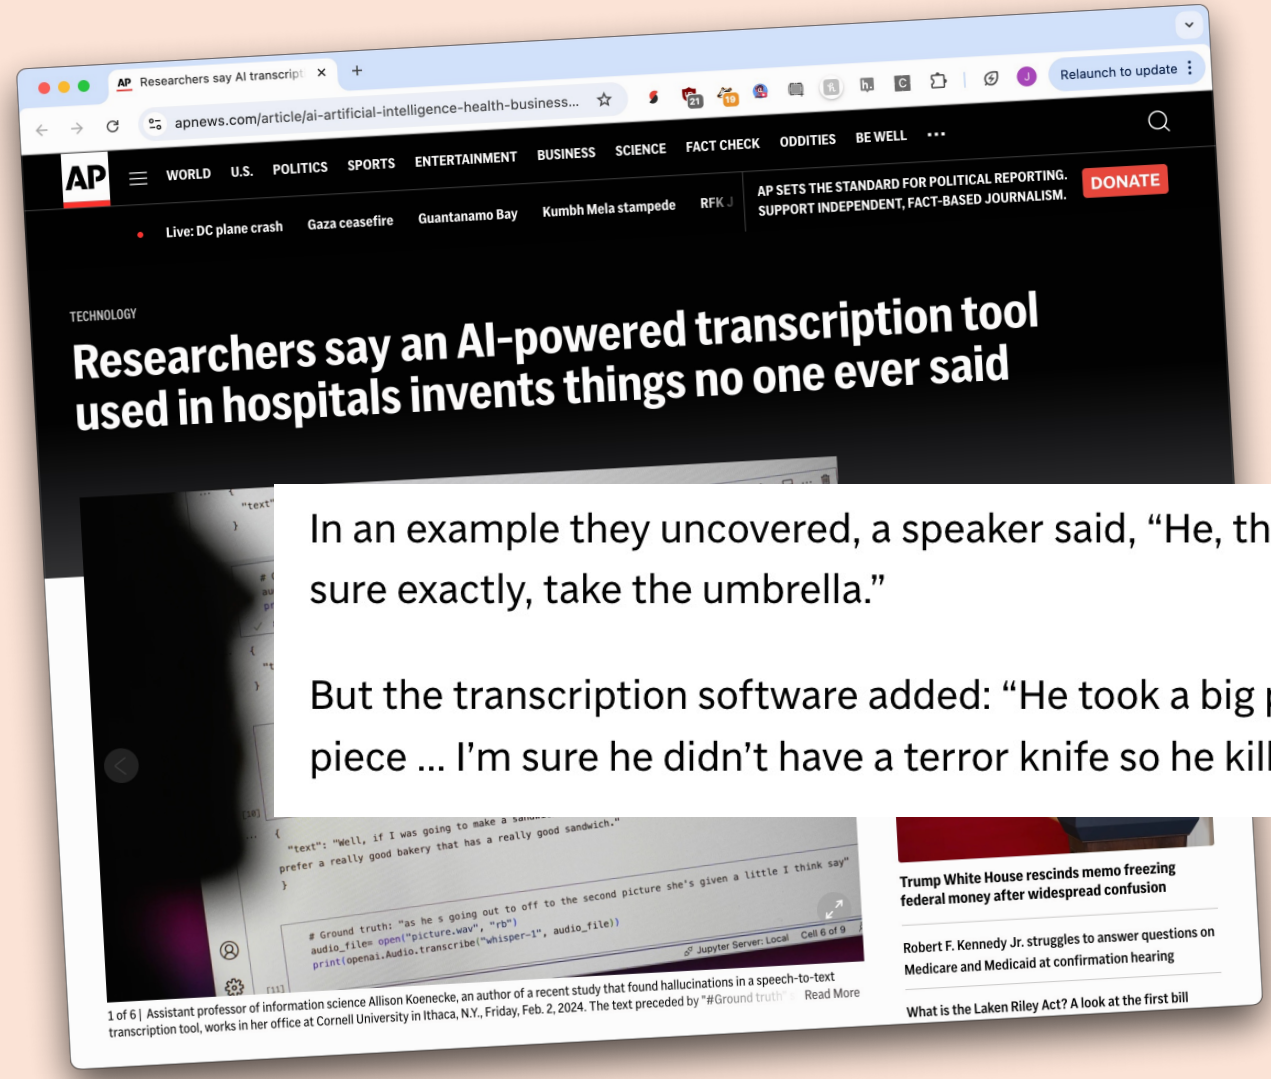
Immigration Fraud & Misinformation

TikTok Videos Spread Misinformation to New Migrant Community in New York City

Misinformation on TikTok influenced these Senegalese migrants to come to the United States. Now they are being fed even more misleading information about navigating their new home.

MALICK GAI
SEP 26, 2024





In an example they uncovered, a speaker said, “He, the boy, was going to, I’m not sure exactly, take the umbrella.”

But the transcription software added: “He took a big piece of a cross, a teeny, small piece … I’m sure he didn’t have a terror knife so he killed a number of people.”
